About

Front End Developer with the goal of becoming a Full Stack Developer. Throughout my learning journey, I have sought challenging projects that allow me to explore new programming approaches and develop creative solutions. My primary focus when coding is to achieve maximum efficiency, adhering to best practices in web development and maintaining clean and scalable code. I always strive to stay updated on the technological landscape to work more professionally and efficiently. Additionally, I aim to learn technologies that will help me achieve my goals.

Projects

OS Portfolio

My Front End portfolio with an Operating System style.
